Claim Submission Instructions

Many Medicaid services allow providers to span bill for multiple days. In order to avoid denied claims for services that are span billed, providers will need to submit separate claims as follows:

1. For services up to and including April 22, 2020, providers will be required to submit claims with the prior authorization number as normal.

2. For those services identified in this provider notice as NOT needing a prior authorization, a separate claim will need to be submitted for services starting April 23, 2020.
